Beaver Farming
Winnipeg, Nov. 9.—Beaver farming can be promoted to a source of revenue amounting to \$500,000 annually to the farmers of Manitoba according to Colonel J. G. Rattray, commissioner of Manitoba Provincial police.

Colonel Rattray says the depredations of beaver in private lands can be checked and their colonies transformed into valuable commercial beaver farms, if the farmers utilize the existing statutory regulations for their preservation.

Continued "Closed Seasons" on beaver has resulted in the establishment of many new colonies of the valuable fur bearers and have also demonstrated that beaver will thrive and increase in well settled districts. It is true, he says, that the beaver cut down trees, but they do not destroy them. All they want is the bark and the owner of the land can use the wood for fuel. He points out that there is no open season south of 53rd parallel, but where beaver becomes too plentiful, a special permit can be obtained to trap them by the owner of the land. The sale of their pelts, Mr. Rattray says, will be a valuable addition to the farmer's income.

AMERICAN ARMS DELEGATION FAVORS FULLEST PUBLICITY

IN THE MEETINGS OF THE DISARMAMENT CONFERENCE—ALL DISCUSSIONS PUBLIC

PROCEEDINGS WILL BE SAME AS IN CONGRESS—QUESTIONS TO BE CONSIDERED

By A. L. BRADFORD.

(Copyright, 1921, United Press.)

This means whenever the full membership of the conference meets, the press will be present if the American view prevails.

The American delegation's belief is that the conference should meet somewhat similar to congress.

Various questions before the conference will be turned over to committees. These committees will probably hold secret sessions, although it has not been determined, Senator Lodge said. Then under the American plan, when a committee has agreed upon a program, it will be taken before the full conference and thrust out in the open, just as it is done in congress.

The American delegation has discussed the question thoroughly, and has agreed upon the fullest publicity.

The American delegation has given no consideration to throwing open such proceedings of the conference as committee meetings and there is no thought that the publicity plan will do so.

LINES ANNOUNCE PLANS FOR PURCHASE OF EQUIPMENT OR RESUMPTION OF IMPROVEMENTS

Minneapolis, Nov. 9.—Additions to equipment and betterments totaling \$25,000,000 in value are being planned by railroads operating in the northwest, reports from various lines showed Tuesday. Heavy investment in maintenance materials also was predicted by railroad officials, who said the Chicago, Milwaukee & St. Paul's order for gondola cars worth \$5,000,000 and stock cars to cost \$3,500,000 was the largest of the equipment orders.

Contracts for nearly \$10,000,000 worth of cars, engines and materials already have been closed by roads in the northwest. The Milwaukee also is to award contracts for 25 locomotives costing \$1,500,000, and is purchasing 1,000 steel frames and 1,374 tons of steel for boxcar repairing.

The Rock Island is buying 14 Mikado engines for \$900,000, 200 coalcars for \$300,000, 14 freight engines for \$800,000 and 250 gondolas for \$400,000.

The North Western line is preparing to buy extensive locomotive and car equipment and has contracted to build a \$1,000,000 subway at Clinton, Iowa.

The Great Northern is contracting for maintenance work materials, will improve its engine and car equipment and will build boiler washout plants at Superior, Wis.; Great Falls, Mont., and Hillyard, Wash.

Beaver Farming
Winnipeg, Nov. 9.—Beaver farming can be promoted to a source of revenue amounting to \$500,000 annually to the farmers of Manitoba according to Colonel J. G. Rattray, commissioner of Manitoba Provincial police.

Colonel Rattray says the depredations of beaver in private lands can be checked and their colonies transformed into valuable commercial beaver farms, if the farmers utilize the existing statutory regulations for their preservation.

Continued "Closed Seasons" on beaver has resulted in the establishment of many new colonies of the valuable fur bearers and have also demonstrated that beaver will thrive and increase in well settled districts. It is true, he says, that the beaver cut down trees, but they do not destroy them. All they want is the bark and the owner of the land can use the wood for fuel. He points out that there is no open season south of 53rd parallel, but where beaver becomes too plentiful, a special permit can be obtained to trap them by the owner of the land. The sale of their pelts, Mr. Rattray says, will be a valuable addition to the farmer's income.

BIG GAME SEASON NEAR HAND

Eleven Day Season from November 10th to November 20th Inclusive

Those who are concerned for the protection of deer and who realize that radical changes are needed to preserve our most important big game animal, will welcome the alterations in Minnesota regulations of deer hunting. It should be remembered that deer and moose hunting this year will be subject to these regulations:

1. License Fees—Resident, \$2.00; non-resident \$50.00.
2. Season—November 10th to November 20th, inclusive, eleven days.
3. Tags—The form of the license is the same as formerly—the coupon tag to be attached to carcass when animal is killed. In addition a metal locking seal, similar to a car seal must be attached when the carcass is transported by any means. This seal will be furnished with the license and a fee of twenty-five cents will be charged therefor. This seal will be numbered the same as the license and no duplicates can be furnished. Do not tamper with this seal.
4. Licenses are required of all persons hunting big game, regardless of residence. No exception for hunting on own land. Must be obtained in county of residence.
5. Bag limits same as heretofore—one deer, any age or sex, or one male, antlered moose.

AMERICAN ARMS DELEGATION FAVORS FULLEST PUBLICITY

IN THE MEETINGS OF THE DISARMAMENT CONFERENCE—ALL DISCUSSIONS PUBLIC

PROCEEDINGS WILL BE SAME AS IN CONGRESS—QUESTIONS TO BE CONSIDERED

(By A. L. BRADFORD.)

(Copyright, 1921, United Press.)
Washington, Nov. 9.—The American delegation has agreed that all plenary sessions of the arms limitation conference shall be open, Senator Lodge, one of the American delegates, told the United Press today.

This means whenever the full membership of the conference meets, the press will be present if the American view prevails.

The American delegation's belief is that the conference should meet somewhat similar to congress.

Various questions before the conference will be turned over to committees. These committees will probably hold secret sessions, although it has not been determined, Senator Lodge said. Then under the American plan, when a committee has agreed upon a program, it will be taken before the full conference and thrust out in the open, just as it is done in congress.

The American delegation has discussed the question thoroughly, and has agreed upon the fullest publicity.

The American delegation has given no consideration to throwing open such proceedings of the conference as committee meetings and there is no thought that the publicity plan will do so.

Johnson emphatically denied the charges of Senator Watson, of Georgia, that 31 members of the A. E. F. were hanged without trial in France.

"The least we can do (and why be
satisfied to do the least?) is to turn
out, and help to make this celebra-
tion a memorable one," said one of
the officers. "Millions of club women
the nation over are asking for an ex-
pression of public opinion in support
of the limitation of arms conference.
This appeal asks whether the nation
wants war or peace; sanity or insan-
ity; life or death. The Business and
Professional Women of Brainerd are
asked to take their place in this mon-
ster parade, not only to celebrate Ar-
mistice Day, but also to show their
stand on the question of limitation of
arms by international agreement."

There will be a meeting of the

in the parlor of the church. Every
member is urged to be present. Visi-
tors are welcome.

MORE ROAD WORK TO HELP JOBLESS

Minnesota Highway Department to Continue Operations on Big Scale During Winter Season

"MORE WORK. BETTER ROADS"

Commissioner Babcock Calls for Bids on First List of 27 Jobs Widely Distributed

Gravel surfacing of 4 miles on the Brainerd-Nichols section of Minnesota trunk highway No. 18, estimated at \$12,000, is part of the big winter program of highway construction announced by Charles M. Babcock, state highway commissioner, following action by congress to provide funds to carry out the "more work—better roads" plan to cut idleness and build needed roads.

The first list of 27 winter jobs—25 miles of paving and 274 miles of gravel—surfacing estimated to cost \$1,687,000—is to be followed soon by others of grading and bridge work, also special team jobs to further relieve unemployed and especially the settlers and farmers of some districts, according to John H. Mullen, assistant commissioner and chief highway engineer. The tentative plan is to use about \$4,500,000 this winter for the dual purpose of reducing idleness and improving roads.

Special efforts are being made to spread the work that many sections may share in the benefits. Several proposed undertakings were postponed until next year because not adapted to cold weather operations. Work is expected to start about Dec. 1. The state law requiring three weeks of advertising, first bids are to be opened Nov. 29 and 30. Then the successful bidders will be made public that job-seekers may apply direct to them. The highway department will have no jobs to fill.

Winter highway work in this section is assured under a supplementary list of eight gravel-surfacing projects, estimated at \$175,000, ordered by Highway Commissioner Babcock after the first regular lot was made public.

Local team jobs, to help needy farmers, and others to employ highway department equipment, will be done through the state maintenance department as follows:

T. H. No. 32, Bolt and Middle River, 9 miles of local team graveling, at \$28,000.

T. H. No. 11, International Falls through Ray, 24 miles of local team graveling after freeze-up, at \$12,650.

T. H. No. 19, Brainerd and Nisswa, 12 miles of state truck graveling, at \$15,000.

T. H. No. 32, Holt and Middle River, 5 miles of local team graveling, at \$12,000.

T. H. No. 35, Hill City and Esquagamah Lake, 10 miles of state truck graveling, at \$10,200.

Three other contracts projects were added to the construction list on which bids will be opened Nov. 30.

T. H. No. 2, Pillager and Brainerd,

6 1/2 miles of gravel-surfacing at \$16,000.

T. H. No. 9, Jackson and Worthington, 8 miles of gravel-surfacing, at \$25,000.

T. H. No. 28, Sauk, Center and Swanville, 21 miles of gravel-surfacing, at \$55,000.

Still other projects are to be added soon to the general winter program.

EVANGELISTIC MEETINGS

Under Auspices First Baptist and the Swedish Baptist Churches Start Tonight

The evangelistic meetings under the auspices of the First Baptist church and the Swedish Baptist church will begin this evening at 7:45 in the First Baptist church. The mutual cooperation of both churches should in this movement be a strong force for good.

The Rev. Arthur C. Smith and A. A. Paulson pastors of the respective churches are anxious that all members of the churches and congregations do their utmost to be in attendance from the very beginning.

Dr. Geo. E. Burlingame will preach tonight and he will have a great message for the people. It would be a great source of encouragement if every officer of the churches and all Sunday school workers and scholars, all young people and along with every organization within the churches should turn out in full force tonight and greet the speaker. If this is done a great blessing is sure to result.

Further announcements will be made at the service tonight and in the newspapers later.

CHAMBER COMMERCE COMMUNITY CENTER

The Chamber of Commerce is becoming increasingly a community center.

Organizations of a civic or semi-public nature are holding meetings on an average of one a day, the United States government is given space for the Veteran's Bureau without charge, and the numerous conventions usually hold either their principal meetings or the committee meetings in the Chamber rooms.

Furnishing a meeting place for these various activities is but a small part of the real value of the Chamber of Commerce to this community.

This fact is becoming more and more apparent.

To create enthusiastic citizenship is one of the great functions of this organization.

To bring to the realization of the people in Brainerd the fact that a score of men and women with purely altruistic motives could double the population of our city in five years and reap a profit for themselves not only in the satisfaction of having accomplished a worthy task but also in dollars and cents.

It is the duty of every citizen to investigate for himself or herself the truth concerning the work of the Chamber of Commerce so that when criticism is aimed at this organization they can meet this criticism with facts.

BIRTHDAY AND SURPRISE

Norwegian-Danish Evangelical Lutheran Church Honors Rev. Stromme and Family

The Norwegian-Danish Evangelical Lutheran church of this city welcomed their new pastor and family only four months ago. Since then the congregation has in a noble way shown their interest in them and their work. It may be said that no sooner had they arrived when a movement was started by this charge to buy a Ford Sedan for their use in the various congregations. This project was brought "over the top" in a very short time and a substantial sum was over subscribed. It is needless to say that pastor and congregation was delighted with this splendid success.

Monday evening, the 7th of November which by chance happened to be the pastor's birthday the Men's club of this church had arranged for a social meeting.

It was very gratifying to the pastor to notice the large audience that had congregated, as he entered the church. Yet there was however no suspicion that anyone had come but for the purpose of enjoying the social meeting, yet it soon developed when Mons Mahlum took the floor that the large audience of members and visitors had come to present the pastoral family with a tangible token of appreciation, consisting of a substantial gift of money.

A splendid program was rendered consisting of recitations, vocal, piano and violin solos and several beautiful Scandinavian songs rendered by the Swedish Glee club of this city. Rev. Estrem of Little Falls, who had come for the occasion added much to the enjoyment of the evening with his fitting remarks. After the program the audience was served to a delightful lunch by the Ladies Aid of the church. The pastor together with his family, Rev. and Mrs. K. Stromme and daughter Evelyn, desire hereby to express their heartfelt thanks for all these undeserved favors thus bestowed upon them.

BUSINESS HOUSES AND OFFICES TO CLOSE ARMISTICE DAY

The directors of the Business Men's Association respectfully requests all business houses and offices to close all day Nov. 11.

A. L. HOFFMAN, Secy.

ASSOCIATION OF NATIONS

President Harding, in a recent address, declared that American participation in world affairs is "inevitable," and expressed a hope that general cooperation "to the common good" would usher in a new day of international relationship. And though we have rejected the League of Nations, it is now semi-officially stated from Washington that the American delegates to the Conference on the Limitation of Armaments have reached a decision on the main objective of the United States government, which is a voluntary association of nations with an international court of justice, and this will be proposed as the basic principle of the relationship among nations, through which an international understanding might be reached that would make possible a reduction of expenditures for armies and navies.

This plan, however, is the antithesis of the League of Nations covenant evolved at the Paris conference. No super-government would be created, and force would not be the underlying principle of the association. It does not provide for a central council with international officers, but would rest upon regularly negotiated treaties among the nations.

There will be no suggestion of compulsory features, and the decisions of the world court, as it will be proposed, would be carried out only as the result of the force of public opinion.

It is stated that the American delegates have also reached a tentative decision on a plan for the limitation of armaments, based upon the principle of percentage reduction of expenditures for armies and navies, as compared with expenditures for other governmental activities.

IMPROVED WEATHER SERVICE

In anticipation of the winter season, which has now arrived, the Weather Bureau of the United States Department of Agriculture has been perfecting its service to assist stockmen and agricultural interests in general against the dangers of cold waves, heavy snows, high winds and blizzards.

The Bureau will expedite the handling of weather forecasts in the western states by the increased use of the wireless. Within an hour or two, at the outside, after the Weather Bureau issues the warning, every community will be in possession of it, as the wireless will be used to communicate forecasts of blizzards, heavy snows, etc., to central points, where arrangements will be made to telephone the information to all parties having phone service.

The perfected service of the Weather Bureau, in the event of a severe winter, such as has been predicted, will undoubtedly save stockmen and farmers in the Northwest hundreds of thousands of dollars by preventing losses among their cattle and other livestock.

SOVIET RECOGNITION

It is not to be expected that there will be any marked change in the attitude of the United States toward the Soviet government of Russia, as a result of the Soviets' latest proposal to recognize the debts of old Russia in return for the recognition of the Lenin government by the Allied and associated powers.

There has been no deviation in this government's position, it can be stated, from that set forth by Secretary

Hughes when the question of trade with Russia was under consideration, and probably will be none. Mr. Hughes, it will be remembered, at that time asserted that the United States could have no dealing or afford no recognition to a government, no matter how de facto it might be, that failed to recognize property rights or the rights of individuals.

Mr. Hughes' position in this matter, we have no doubt, meets with the hearty approval of a vast majority of the American people.

NORTHWEST LOAN LARGEST

During the two and one-half months since Congress authorized the War Finance Corporation to make advances for agricultural and live stock purposes, more than \$22,500,000 in credit has been extended to farmers and stock men, through about 82 financial institutions located in nineteen states, for the purpose of making loans to farmers and stock raisers.

The advances made so far range from a few thousand up to one of \$15,000,000 to a co-operative association in Minnesota, North and South Dakota, to assist in marketing grain. Where advances are made to a co-operative association, a credit is set up which it can draw against as the need arises, but where the advance is made to a bank or financial institution the loan is made at once.

AMUSEMENTS

At the Lyceum Today

It was necessary to obtain and rehearse a full chorus for the stage scenes in which Alice Brady appears as Flo Maddis, a Broadway show girl in "Out of the Chorus." The chorus was carefully selected by Herbert Blache, directing the picture, who was as critical in his choice of types of beautiful young women as the producers of any of the Broadway roof attractions.

ALICE BRADY

The plot demands chorus numbers of particular nature and the chorus and principals who appear in the stage scenes were rehearsed to the music of a large orchestra.

In two scenes Miss Brady appears dancing with John Hughes, of the famous team, Adelaide and Hughes. A new dance number was created for Miss Brady and Mr. Hughes and is shown in the scene when Flo has returned to the stage to earn the price of her husband's defense in his approaching trial for murder. The scenes were filmed at a Broadway theatre and a host of supernumeraries were hired to represent the audience.

"Out of the Chorus" will be shown at the Lyceum theatre for two days beginning tonight.

history is revived on the screen in Marshall Neilan's stirring story, "Bob Hampton of Placer," which is shown at the New Park theatre today and tomorrow.

Director Neilan is said to have employed more than 2000 Indians and soldiers to reproduce in this motion picture General Custer's gallant last stand against the Indian tribes of the far west.

James Kirkwood has the title role in this story, which is one of love and adventure, as well as battle with the redmen under Sitting Bull. Wesley Barry's smiling face and uncounted freckles will also be seen in a role especially created for him by Mr. Neilan.

Marjorie Daw has the chief feminine part, and other important players to be seen in this production are Pat O'Malley, Noah Beery, Frank Leigh, Dwight Crittenden, who portrays General Custer, Tom Gallery, Priscilla Bonner, Charles West, Bert Spottle, Carrie Clark Ward, Vic Potel and Bud Post.

The scenario for "Bob Hampton of Placer" was prepared by Marion Fairfax.

According to advance reports, the production represents the most ambitious effort yet made by Marshall Neilan, who has to his credit several notable cinema successes of recent years. It was photographed among the scenic grandeur of Glacier National Park and on the actual site of Custer's Last Stand.

GIRL CASHIER IS A REAL HEROINE

Foils Yeggman Who Attempted to Hold Up the National Bank of Aitkin Tuesday Afternoon

BANK BURGLAR ALARM SOUNDS

Yegg Who had Been in Brainerd on Monday Night, Then Fled to Cromwell Where He Was Captured

A new line of highwayman has come to light in Brainerd. Transient came to town, hired George Stein, a taxi man to take him to Aitkin.

Passing through Deerwood he flourished two forty-fours and told Stein he was going to hold up the Deerwood bank.

Stein laughed and continued on to Aitkin. At Aitkin as he left the automobile the stranger told Stein he was going to hold up an Aitkin bank. Stein looked all around for a policeman in Aitkin and finding none, returned to Brainerd where he notified Captain Erick Graff.

Graff telephoned the Aitkin county sheriff and the latter said somebody had attempted to hold up an Aitkin bank and failed and he was chasing the man to Tamarack.

The highwayman was of light complexion, weighed 150 to 160 pounds, wore a red sweater and cut off or "stugged" overalls, a cap, had a smooth, thin face, and carried a pack sack.

When George Stein, Brainerd taxi man, got a fare to take to Aitkin, he became part of a series of incidents which surprised him, to say the least.

As related later, the man he carried in his car proved to be a man who actually held up a bank and made good the conversation he carried on while in the car.

Mr. Stein supposed the talk that his fare would hold up a bank in Deerwood or Aitkin was largely joking, but nevertheless he sought to get in touch with Aitkin authorities and then at Brainerd he told Captain Erick Graff.

Aitkin, Duluth Notified
Captain Graff notified the sheriff at Aitkin. Duluth was notified too.

Armed with riot guns, a squad of Duluth police detectives and patrolmen, led by Warren E. Pugh, chief of police, late Tuesday afternoon guarded all roads entering the city from the west to frustrate the escape of a bandit who later was captured at Cromwell, after he had attempted to hold up the National bank of Aitkin.

A telephone message to Duluth police stated the man had sped through Carlton in a large automobile.

The bandit, according to Aitkin county officials, arrived in Aitkin at 2:30 p. m., walked into the National bank, pulled a revolver from a pocket and demanded Miss Nan Toan, 20-year-old assistant cashier in charge of the bank, to hand him the bank's cash, stacked before the cashier's window. He spoke in a subdued tone and authorities were told.

Disregarded Command

Miss Toan, disregarding the heavy gun held less than a foot from her face, refused and dropped to the floor beneath the counter. Veau Hauge, clerk, engaged in the rear of the bank, attracted by Miss Toan's fall noticed the yeggman, and also dropped behind the counter where he pressed a floor button setting the bank's burglar alarm in operation.

Frightened by the alarm, the bandit fled without obtaining loot.

A clerk from the First National bank who was making the afternoon clearing, and Harry Sanders, Palsade, a customer, were in the bank when the bandit entered but neither

were aware of the attempted hold up until the burglar alarm began to ring.

After leaving the bank, the hold-up man, hurried to a garage where he engaged an automobile and sped from the city before authorities had learned of the attempted robbery.

When the auto reached Cromwell, 40 miles east of Aitkin, the bandit ordered the driver to stop in front of a store. As he left the car, the driver saw the man's gun. He immediately summoned Frank Wagner, marshal of Cromwell, who arrested the man near a garage.

Prisoner Returned
Aitkin authorities were notified and Sheriff Isaac Boekenogren with a deputy drove to Cromwell and returned last night with the prisoner.

In Brainerd Monday, Tuesday
Brainerd people said the yegg had been in Brainerd Monday night and half a day Tuesday.

Monday night he walked into the Ramsford hotel lobby, sized it up, looked at the desk and safe, and so alarmed Butler Brothers that they did not keep their money in its usual place but put it in another safe.

What a Glorious Night With Blankets Like This!

When the air is keen as steel and the first crisp snow blows in the window near the bed, what a joy to creep down under the deep, warm wool of such blankets as these and enjoy the wonderful air that you may breathe!

What a pity to have such a night and have to lower the health-giving windows for the lack of this added warmth.

Then, too, prices are now so much more reasonable than they have been for years. For instance:

An all wool blanket 66x30 inches, good heavy weight—Pretty, pink, blue, tan or grey plaids—An exceptional value at but **\$7.45**

Then we have woolen blankets of other qualities, and cotton blankets from the inexpensive kinds to the wool finished kinds that have the appearance of wool. Why not see them?

GO at your pleasure—go where you choose and when you choose, with your family or your friends. Enjoy the boundless beauties of nature, the pure air, a lunch in a shady wood, a fishing excursion, a rest by a cool lake or stream.

You can in a Ford. Millions have learned by experience that to own and operate a Ford is not an extravagance; they have learned that the many pleasures derived from a Ford takes the place of other pleasures, and the saving thus made often pays for the car and its maintenance.

Let's talk this matter over. Get the facts and figures.

GIRL CASHIER IS A REAL HEROINE

Foils Yeggman Who Attempted to Hold Up the National Bank of Aitkin Tuesday Afternoon

BANK BURGLAR ALARM SOUNDS

Yegg Who Had Been in Brainerd on Monday Night, Then Fled to Cromwell Where He Was Captured

A new line of highwayman has come to light in Brainerd. Transient came to town, hired George Stein, a taxi man to take him to Aitkin.

Passing through Deerwood he flourished two forty-fours and told Stein he was going to hold up the Deerwood bank.

Stein laughed and continued on to Aitkin. At Aitkin as he left the automobile the stranger told Stein he was going to hold up an Aitkin bank. Stein looked all around for a policeman in Aitkin and finding none, returned to Brainerd where he notified Captain Erick Graff.

Graff telephoned the Aitkin county sheriff and the latter said somebody had attempted to hold up an Aitkin bank and failed and he was chasing the man to Tamarack.

The highwayman was of light complexion, weighed 150 to 160 pounds, wore a red sweater and cut off or "staggered" overalls, a cap, had a smooth, thin face, and carried a pack sack.

When George Stein, Brainerd taxi man, got a fare to take to Aitkin, he became part of a series of incidents which surprised him, to say the least.

As related later, the man he carried in his car proved to be a man who actually held up a bank and made good the conversation he carried on while in the car.

Mr. Stein supposed the talk that his fare would hold up a bank in Deerwood or Aitkin was largely joking, but nevertheless he sought to get in touch with Aitkin authorities and then at Brainerd he told Captain Erick Graff.

Aitkin, Duluth Notified
Captain Graff notified the sheriff at Aitkin. Duluth was notified too.

Armed with riot guns, a squad of Duluth police detectives and patrolmen, led by Warren E. Pugh, chief of police, late Tuesday afternoon guarded all roads entering the city from the west to frustrate the escape of a bandit who later was captured at Cromwell, after he had attempted to hold up the National bank of Aitkin.

A telephone message to Duluth police stated the man had sped through Carlton in a large automobile.

The bandit, according to Aitkin county officials, arrived in Aitkin at 2:30 p. m., walked into the National bank, pulled a revolver from a pocket and demanded Miss Nan Toan, 29-year-old assistant cashier in charge of the bank, to hand him the bank's cash, stacked before the cashier's window. He spoke in a subdued tone and authorities were told.

Disregarding Command

Miss Toan, disregarding the heavy gun held less than a foot from her face, refused and dropped to the floor beneath the counter. Yean Hauge, clerk, engaged in the rear of the bank, attracted by Miss Toan's fall noticed the yeggman, and also dropped behind the counter where he pressed a floor button setting the bank's burglar alarm in operation.

Frightened by the alarm, the bandit fled without obtaining loot.

A clerk from the First National bank who was making the afternoon clearing, and Harry Sanders, Fallside, a customer, were in the bank when the bandit entered but neither

were aware of the attempted hold up until the burglar alarm began to ring.

After leaving the bank, the hold-up man, hurried to a garage where he engaged an automobile and sped from the city before authorities had learned of the attempted robbery.

When the auto reached Cromwell, 40 miles east of Aitkin, the bandit ordered the driver to stop in front of a store. As he left the car, the driver saw the man's gun. He immediately summoned Frank Wagner, marshal of Cromwell, who arrested the man near a garage.

Prisoner Returned
Aitkin authorities were notified and Sheriff Isaac Boekenoggen with a deputy drove to Cromwell and returned last night with the prisoner.

In Brainerd Monday, Tuesday
Brainerd people said the yegg had been in Brainerd Monday night and half a day Tuesday.

Monday night he walked into the Rensford hotel lobby, sized it up, looked at the desk and safe, and so alarmed Butler Brothers that they did not keep their money in its usual place but put it in another safe.

What a Glorious Night With Blankets Like This!

When the air is keen as steel and the first crisp snow blows in the window near the bed, what a joy to creep down under the deep, warm wool of such blankets as these and enjoy the wonderful air that you may breathe!

What a pity to have such a night and have to lower the health-giving windows for the lack of this added warmth.

Then, too, prices are now so much more reasonable than they have been for years. For instance:

An all wool blanket 66x30 inches, good heavy weight—Pretty, pink, blue, tan or grey plaids—An exceptional value at but **\$7.45**

Then we have woolen blankets of other qualities, and cotton blankets from the inexpensive kinds to the wool finished kinds that have the appearance of wool. Why not see them?

CAN'T DO THE WORK

It's too much to try to work every day against a constant, dull backache, or sudden darting pain in the small of the back. Be rid of it. Try Doan's Kidney Pills. Your neighbors recommend them. Ask your neighbor!

Mrs. A. C. Hanson, 911 Kingwood St., Brainerd, says: "I had such a backache due to a disordered condition of my kidneys I was almost frantic. There was hardly a thing about the house I could do, my back was so sore and stiff. Stopping so irritated my back and kidneys I just had to give up. I had a constant, dull ache across the small of my back that just laid me out. I got such dizzy spells I didn't know what I was doing nor where I was going. I certainly was feeling miserable until I was led to use Doan's Kidney Pills. It only took a short time for Doan's to rid me of the misery and since then, my health has been just fine."

How Yeast Vitamon Tablets Put On Firm Flesh

Quickly Increase Your Energy and Beautify the Complexion—Easy and Economical to Take.

Thin or run-down folks! Take Mastin's VITAMON—two tablets with every meal. Then weigh and measure yourself each week and continue taking Mastin's VITAMON regularly until you are satisfied with your gain in weight and energy. Mastin's VITAMON contains highly concentrated yeast-vitamins as well as the two other still more important vitamins (Fat Soluble A and Water Soluble C). It is now being used by thousands who appreciate its convenience, economy and quick results. By increasing the nourishing power of what you eat Mastin's VITAMON supplies just what your body needs to feed the shrunken tissues, strengthen internal organs, clear the skin and renew shattered nerve force without upsetting the stomach or causing gas. Pimples, boils and skin eruptions seem to vanish as if by magic and the complexion becomes radiantly clear and beautiful.

IMPORTANT! While the amazing health-building value of Mastin's VITAMON has been clearly and positively demonstrated in cases of lack of energy, nervous troubles, anemia, indigestion, constipation, skin eruptions, poor complexion and a generally weakened physical and mental condition, it should not be used by anyone who OBJECTS to having their weight increased to no "val." You can get Mastin's VITAMON tablets at all good druggists.

Are Positively Guaranteed to Put On Firm Flesh, Clear the Skin and Increase Energy When Taken With Every Meal or Money Back
